

Coils

- » The new models suitable for WAP consist of only 3 instead of up to 10 space struts.
- » The space between the inner and the outer winding has been increased. By means of this increased space the coils have improved exhaust emission characteristics. Moreover, there is sufficient space for cleaning between the windings.

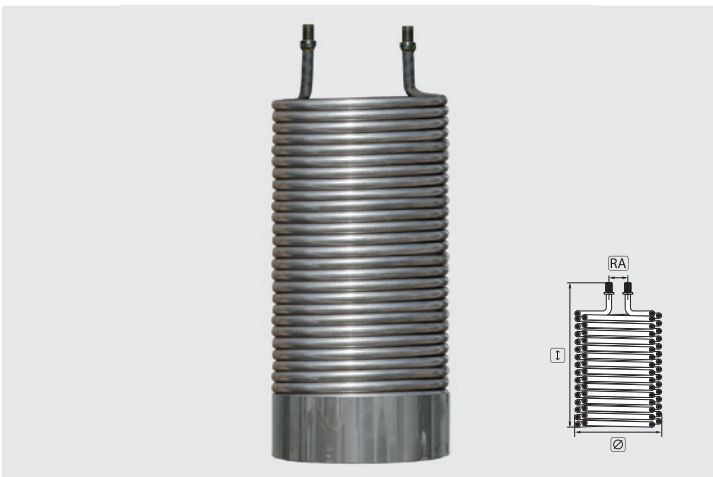

- » The new models suitable for Kärcher consist of only 3 instead of up to 10 space struts.
- » The space between the inner and the outer winding has been increased. By means of this increased space the coils have improved exhaust emission characteristics. Moreover, there is sufficient space for cleaning between the windings.

Suitable for WAP

R+M Nr.	Suitable for hp cleaner	I	Ø	RA	RØ
200 080 600	C / CS / DX bis 06/98	500	280	240	17,2
